31 years old | Sta. Ana Manila & Sapangbato, Angeles City, Pampanga

OBJECTIVE

With nine years of progressive experience in engineering design, project-operation management, and industrial applications, I aim to leverage my expertise in design software, machine operation, structural construction, process maintenance, and sheet metal work. I seek a role that allows me to contribute to new concept development, finite element analysis, simulation, prototype creation and (BIM) Building Information Modelling advancing towards a Mechanical Design Engineer position.

EXPERIENCE

Senior 3D Draftsman

Shore360 (BPO)

Clark Freeport Zone, Central Luzon, Philippines

September 2024 - December 2024

- Prepared 3D model using Inventor based on existing reference drawings, site photos and client specifications.
- Reviewed drawings for compliance with Australian standards in mechanical, piping and structural dimensioning and detailing.
- Communicated with engineers and incorporated gained knowledge into drawings.
- Experienced in preparing 3D scan data in Inventor and ensuring final designs comply with building regulations.
- Identified and communicated potential design issues to the team.
- Added experience in using Revit for architectural construction project in a team setting.

CAD Drafter/Detailer

Guerilla Staffing Solutions (BPO)

Clark Freeport Zone, Central Luzon, Philippines

January 2024 - July 2024

- Ensured designs met client standards for piping, PFC steel, equipment, and sheet metal.
- Performed calculations on parts and assemblies to meet client-critical dimension requirements.
- Reviewed and identified potential design issues with team leaders.
- Familiarized with hex code, piping and instrumentation diagrams, safety bollards, sheet metal enclosures, and weldments.
- Collaborated using various software to provide acceptable file formats for reports, CNC fabrication, and presentations.
- Created and rendered 3D modeling outputs using Onshape, Solidworks and Inventor for client marketing presentation and fabrication references.

Production Engineer

HMWS INC.

Clark Freeport Zone, Central Luzon, Philippines

November 2021 - April 2023

- Conducted final checks the 3D drawings including parts, assemblies, and BOM, for mass production.
- Coordinated and provided necessary project documentation as per client specifications.
- Utilized Solidworks, Navisworks, Aconex for proper transmittal documentation.
- Resolved engineering issues in production processes and monitored engineering change notices.
- Evaluated and monitored material updates and design standards in plant manufacturing sections.
- Prepared and inspected improvements to production process and standard work instructions.
- Organized and reported engineering monitoring progress using Google Spreadsheets.

Maintenance CAD Designer/AutoCAD Draftsman

Big Boss Cement Inc.

Mancatian, Porac, Pampanga, Philippines

July 2017 - October 2021

- Created and converted DXF, STP, IAM, IGES, and SolidWorks files to complete parametric 3D Model assemblies.
- Used software such as AutoCAD Mechanical, Revit and Tekla BIMsight to insert special features, check dimensions and review elevations views.
- Applied reversed engineering to existing machine assemblies and mechanical equipment parts for repairs.
- Report directly to Production and Maintenance Manager, Supervisor and Superintendent for technical drawing updates and urgent preventive or corrective operations.
- Designed structural, mechanical drawings for operational process based on sketched provided by Managers and Supervisor.
- Updated piping and instrumentation diagrams for the cement process flow.
- Participated in central control room operations and inspections during the manufacturing process.

CNC Programmer/Document Controller/QC Inspector

LAKSHMI Bemt.

Clark Freeport Zone, Central Luzon, Philippines

January 2015 - July 2017

- Created 3D profiles and CNC files using AutoCAD and simulation programs.
- Developed CNC programs using simulation software for fabrication.
- Managed and reviewed documents/CAD drawings required for production.
- Used Aconex for collaboration and documentation of onsite projects.
- Collaborated with production teams to ensure correct material orientation.
- Executed dimensional layouts based on metal fabrication drawings.
- Conducted thorough inspections of final assemblies to ensure products were ready for export.

EDUCATION**Bachelor of Science in Mechanical Engineering**

University of Antique-Sibalom Campus

2009 - 2014

AutoCAD Vocational Technical Course

Technical Education and Skills Development Authority (TESDA)

The Bethel Educational Support and Technology, Inc., Imus, Cavite

August - December 2014

Award: Best in 2D and 3D Operation

CERTIFICATES

- Certificate of Training in AutoCAD
- Onshape Fundamental CAD
- ISO 9001:2015 Quality Management Systems Foundation Course
- ISO 9001:2015 Quality Management System Internal Audit Course

SKILLS**Technical Skills:**

- Advanced: AutoCAD Mechanical (2D and 3D), Onshape, SolidWorks, Inventor, Aconex, MS Office
- Intermediate: Revit, Solid Edge, Photoshop, Lumion, SketchUp, Bluebeam
- Beginner: 3ds Max, Tekla Structures, Blender, ArchiCAD

Machine Operation:

- CNC Machine
 - Plasma Cutters
 - Lathe Machine
-

SEMINARS AND FIELD TRIPS

- Power Generation of Coal Fired Power Plant at Panay Electric Power Corporation, 2012
 - Airport Power and Control System at Iloilo International Airport, 2012
 - Road Asphalt Production Plant at Iloilo International Builders Corporation, 2012
 - Pepsi Cola Production at Iloilo Pepsi Plant, 2012
 - Home and Building Parts Pre-cast Manufacturer at Laguna Fil-Prey Construction, 2014
 - Steel Processing and Sizing at Manila Steel Company, 2014
 - Communication and Control System at Manila Bayan Tel, 2014
 - Train Mechanical and Control System at Manila LRT II, 2014
-

PERSONAL INFORMATION

- **Gender:** Male
 - **Civil Status:** Single
 - **Height:** 5 ft. 3 in.
 - **Hobbies:** Playing outdoor ballgames, video games, biking, hiking, practicing guitar
