**PORTFOLIO SAMPLE**

Technical drawing of a 1U rack-mountable device enclosure. The drawing includes four views: a front view (top left), a side view (bottom left), a rear view (bottom right), and a 3D perspective view (top right). The front view shows a rectangular enclosure with a top handle and a bottom handle. The side view shows the profile of the enclosure with a top handle and a bottom handle. The rear view shows the internal components, including a fan, a power supply, and a cooling fan. The 3D perspective view shows the enclosure from an isometric perspective, highlighting the front panel, side panel, and rear panel. The enclosure is blue and has a 1U height. The front panel features a large circular fan and a power button. The side panel has a handle and a latch. The rear panel has a power supply and a cooling fan. The drawing is a technical illustration, likely for a product manual or a catalog.
